Dear parent/carers

Maths Home Learning: Hegarty Maths

The purpose of this letter is to inform you about an excellent new resource we will be using this year to set home learning tasks in maths for all of our students: Hegarty Maths. **The instructions for accessing Hegarty Maths are overleaf.**

Hegarty Maths is a highly successful resource which will ensure that, along with fantastic teacher-led maths lessons in school, your child will also be supported at home with their maths learning.

At home, students may struggle to remember concepts they learnt in class and parents often find it difficult to help their child through specific methods that their child may have been taught at school.

This platform aims to have a positive impact in the following areas:

- Students' experience of success in maths: by providing support through tutorial videos, we give students the best opportunities to do well and feel positive about their learning in maths.
- Students' progress and attainment in maths.
- Teachers' ability to provide bespoke support for students based on their individual strengths and needs.
- Parental engagement and ability to assist in your child's maths learning.

Students will be set one maths home learning task per week, and this will consist of two parts:

- Watching the tutorial video clip and taking detailed notes in their exercise book.
- Completing the quiz by writing all of their working out in their books, and entering their answers on the website.

Teachers may also utilise Hegarty Maths as part of our remote learning provision during this lockdown period.

Hegarty Maths can be accessed via a computer, tablet, or smartphone, and **there is no need to download any apps.**

Thank you very much for taking the time to read this letter and please do contact the Academy if your child has any issues accessing their home learning on Hegarty Maths.

Kind regards

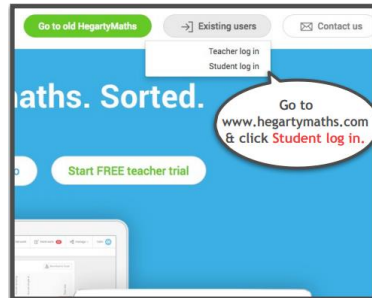

Mr Jai Sharma
Faculty Leader - Mathematics

How to access your maths home learning tasks on Hegarty Maths

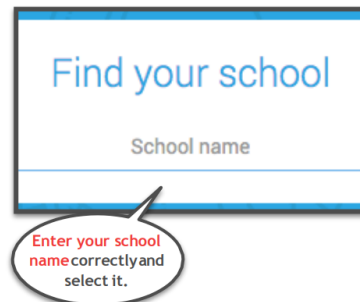

Step 1

Go to **hegartymaths.com** and click **student login**.

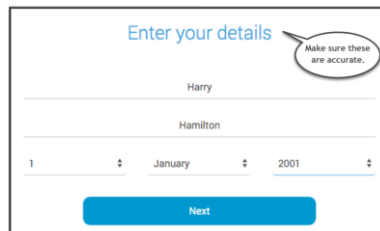

Step 2

Enter **The Dukeries Academy** and click on it when it appears in the drop down menu.

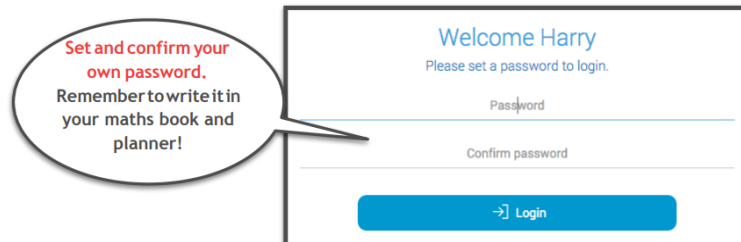

Step 3

Enter **your first name, surname, and date of birth**.

Step 4

Set your own password. **Write your password in your maths book and also in your planner.**

Step 5

Your home learning will be found in the **My Tasks** page.
